Technology Resources

ANDANTE is developing, and later will evaluated and validate through 13 uses cases, a set of technologies, components, and solutions. Whether you are a professional in Digital Industry, Digital Farming, Transport and Smart Mobility, Healthcare and Digital Life related fields, an AI or an IC developer for Edge computing applications, a policy maker or just curious about the potential of Smarter IoT solutions, the Figure below will help you learn how ANDANTE technologies contribute for helping in the development of EU Edge domain value chain.

"This project has received funding from the ECSEL Joint Undertaking (JU) under grant agreement No 876925. The JU receives support from the European Union's Horizon 2020 research and innovation programme and France, Belgium, Germany, Netherlands, Portugal, Spain, Switzerland".
